

LCE Weekly Newsletter

August 24-28

Important Dates:

September 7th - Labor Day, no school

Class News:

We had a great first week of school. The trainees loved the new health, hygiene and etiquette classes. They are all doing well learning all the new procedures and keeping their mask on.

Supervisor Note:

Thank you, parents for helping our class have a successful first week. Please continue to send trainees every day with their planners, lunch, and water bottles. I know mornings can be crazy! Let your trainee help prepare and pack their own lunch! They can do it! We are making plans to start cooking in September. More details to come! Although we won't be able to make and serve lunches. We are coming up with some creative ways to practice cooking skills. More details to come soon.

Quote of the Week:

It may not be easy but it will be worth it!
