Our Learning

Hello! This week I will begin testing every student and developing IEP goals and objectives for the school year! I am going to start our curriculum Land of the Letter People with the letter M! I have a few that will be using a different Language Arts curriculum this year. As I test and see where they are at, I will decide which is best for them. I will also begin Handwriting Without Tears and Frog Street Press. More information on these curriculums is in their folder and will help you get a better idea of what to expect.
